FOOD SERVICE COMMITTEE

This committee is responsible for setup of the dining hall, serving of meals to the caterpillars, inside team, those who have prepaid attendance at mealtime on the current flight, and cleanup of the dining hall during the flight weekend.

This committee is responsible for all facets of the weekend associated with meal times. There should be sufficient numbers of servers for each meal to help with table setup, serving caterpillars and team, table cleanup and washing dishes following each meal.

Team should have at least 5 on this committee available all weekend; at best 10-12 people are needed to serve and clean up each meal. Team members who come only to serve meals can assume beverage service and remain in the dining room while the team members are eating.

Have tables ready according to schedule.

Keep an accurate count of outside team members served.

Before the Walk:

Get a list from Housing & Registration of names of caterpillars and team members with special dietary needs.

Obtain a copy of weekend schedule to insure readiness for meal times and to tell servers when to arrive.

During the Walk:

No later than Thursday evening, get a copy from Housing & Registration of the list with number of caterpillars and team members who have prepaid for weekend meals. There will be some extra meals encase some teens show up to serve during the weekend.

Before each meal:

Set up tables for each meal. Assist Agape if needed to place agape on tables.

The tables in the dining hall are setup for the caterpillars and inside team only. Add one extra chair to the number of those in the conference room. The ALDs will have that information for you.

The outside team does not eat with the caterpillars. The outside team eats at the three tables that are setup behind the curtain.

Silverware, glasses, salt & pepper, sugar & creamer, folded napkins; fork, knife, spoon and any other table condiments should be placed on the tables before each meal and removed following the meal.

Living Waters Chrysalis Community
Food Service Schedule

Salads, desserts, and ice in the glasses are normally placed on the tables about 10 minutes prior to the meal.

A cart with assorted soft drinks, tea, coffee, and water is needed to help serve the pilgrims faster. Be prepared at each meal to begin serving earlier than scheduled. The ALDs should keep everything on schedule, but sometimes the caterpillars are ready early.

Make sure new servers are afforded the opportunity to serve the meal. One time servers may remain throughout meal to serve beverages and “seconds” when available. Sponsors and immediate family members are not allowed to serve meals.

Have a prayer with all servers a few minutes before the caterpillars are to arrive. Check that all watches are removed. At this time, assign team and volunteers to serve drinks, coffee, plates, etc.

After each meal:

Humble servants and other servers assist with table clean up, but Food Service **is responsible** for cleaning up the dining hall after meals. After the meal is over wipe off the tables but leave them bare. Sweep the floors, empty the trash and mop the floor if necessary.

Food Service, with help from humble servants if needed, is responsible for transporting the dishes, glasses, cups, flatware, etc to the kitchen, cleaning them, drying them and preparing for next meal time.

Table setup:

Friday Breakfast will need to be setup on Thursday night before bed.

Wash the tables. Get a head count on who will be eating on Friday morning. The caterpillars will not arrive until approx 7:45 am. The first breakfast is normally team only. Then put salt, pepper, sugar, creamer, glasses and coffee cups on the tables. Put butter and jellies out the next morning.

Make sure tea is ready for Friday lunch and each meal following that. You will have to find someone who knows how to make the tea.

Friday Dinner will be the first time for agape to be placed on the tables. It is the AGAPE Team’s responsibility for placing agape on the tables. Food Service can assist.

Living Waters Chrysalis Community
Food Service Schedule

Saturday Night Candlelight Dinner is a special time for the caterpillars. This is a time intensive preparation.

The tables should be arranged in a special arrangement. Use table names on the four caterpillar tables and setup 2 more tables for the team. That will be a total of 6 tables used. Get the exact number of chairs needed for each caterpillar table from Agape.

Use colorful tablecloths, napkins, flowers, and/or other decorations on the tables.

Ask the Lay Director for their input on theme. Servers may be asked to wear white tops, black pants, shorts, etc.

Dim the lights and place candles throughout the dining hall.

Recorded music can be played softly during the dinner.

Only the caterpillars and inside team are to view the entertainment.

Sunday is Fly With Christ day.

Setup for Sunday breakfast will be Saturday night after the Community Party. This is usually around 10:30 – 11:00 PM.

Setup the tables with assorted colorful tablecloths and napkins at both breakfast and lunch. If colorful glasses are available, use them as well. There will be several assorted colorful tablecloths in the kitchen boxes for you to use. The servers wear aprons and funny hats that are located in the kitchen boxes.

Before departure: Assist Kitchen committee in clean up and restoration. Return all Camp Boothe items used in food service to proper place. Check that all LWE inventory used is clean, dry, labeled and properly stored.

Give list of meals/how many team members were served to Outside Board Rep.
